

Scale-Fu

Music in Catholic Schools Band Scales-For-Us

As with the martial arts, individuals must progress through skills on their instruments. Achieving higher levels of skill leads to mastery on the instrument and a feeling of success. Just as new martial arts students gain accomplishment being a “white belt,” they know that this is only the beginning. They are challenged to work toward greater expertise. In a similar way we challenge all MCS band students to achieve the discipline of learning skills to become accomplished musicians on their instruments. One goal for our students is for each of them to strive to continuously learn and become better players.

LEVEL REQUIREMENTS
